

AEQUUM – Origin and history

1997-1999

A large group of people around the world have thought about the money of the third millennium and how it would have been created, distributed and used.

Without going into the details of the path taken and the various options taken into consideration, the result of the analyzes and discussions led to the following result:

- creating a single type of money for the entire global population by choosing for them the name: aequum
- aequum are shared property of entire populations on planet Earth, which is at the same time their issuer and user, each individual being free to choose or refuse this status
- creation of an monetary mass by the following rules:

1 - for the period 2000-2009 in each year on January 1, 1 unit of aequum money will be created multiplied with the world population* of the previous year;

2 - for the period 2010-2019 in each year on January 1, 10 units of aequum money will be created multiplied with the world population* of the previous year;

3 - on January 1, 2020, 100 units of aequum money will be created multiplied with the world population* of the year 2019;

4 - on January 1, 2020 the total of aequum money created (monetary mass) will be considered as a Global Development Fund;

5 - after January 1, 2020, aequum money will be created only for those who accept them as their money based on rules that will be established by the end of year 2018.
